

Rachit Khurana

Full-Stack Developer building AI, mobile, and desktop applications
notnotrachit@gmail.com | rachitkhurana.tech | linkedin.com/in/rachitkhurana1 | github.com/notnotrachit

TECHNICAL SKILLS

Languages: Python, JavaScript, Golang
Frameworks: React Native, React, Next.js, Django, Flask, FastAPI, Tailwind CSS
Databases: MongoDB, PostgreSQL, MySQL
Tools: Linux, Fedora, Bash, Git, Docker, GitHub

EXPERIENCE

Hyathi Technologies Dec 2024 – Present
Full Stack & Web3 Developer Intern

- Implemented production features for a fintech platform targeting the Canadian market using Node.js, MongoDB, and React Native
- Developed core components of the BOSS AI desktop voice agent and led the Windows client implementation using Tauri, producing a <30MB app (vs 300–400MB competitors) and maintaining < 100MB RAM usage
- Built retrieval-augmented generation (RAG) pipelines enabling contextual AI responses from user data

ClearMind AI Jun 2023 – Aug 2023
Full Stack Developer Intern

- Led end-to-end development of an AI-powered journaling web application using Next.js and Tailwind CSS
- Integrated OpenAI and Microsoft Azure APIs to generate AI-driven insights from journal entries

PROJECTS

Ryla | AI, Python, NextJS, Convex | Live [↗](#)

- Built an intelligent assistant that bridges Slack and Basecamp, enabling users to ask questions, create tasks, cards, and retrieve project updates on basecamp without leaving Slack

Sharepal | React Native, Golang, MongoDB | Backend [↗](#), Mobile [↗](#)

- Built a mobile-first expense sharing platform supporting settlements, notifications, and multi-group tracking
- Designed scalable backend APIs in Golang and optimized mobile workflows for low-latency expense updates

Re-Dcrypt | Python, Django, Tailwind, JavaScript | GitHub [↗](#)

- Built a full-stack platform for hosting cryptic hunts with real-time Discord bot synchronization
- Implemented honeypots and detailed activity logging to detect and prevent cheating

DevCompete | Django, Redis, WebSockets, Docker | GitHub [↗](#)

- Developed a real-time 1v1 coding contest platform with Docker-isolated code execution environments
- Implemented WebSocket-based live opponent progress tracking without exposing source code
- Built an AI-powered practice mode for automated coding challenge generation

ACHIEVEMENTS & CERTIFICATIONS

Winner — Onchain Summer Buildathon
Winner — Coinbase Developer Track at EthIndia
3rd Place — Hedera Hello Future Hackathon (AI Track)
3rd Place — Hedera Hello Future Hackathon (Decentralized Identity Track)
AWS Certified Cloud Practitioner — Credential [↗](#)
Microsoft Azure Fundamentals (AZ-900) — Credential [↗](#)
Google IT Automation with Python — Certificate [↗](#)

COMMUNITY WORK & LEADERSHIP

Microsoft Learn Student Ambassador Aug 2024 – Present
Beta MLSA

- Hosted a portfolio-building workshop with 900+ registrations

FOSS United College Chapter, Bennett University Sep 2024 – Sep 2025
Lead

- Organized Linux Fest for open-source and Linux enthusiasts
- Led BU Hacktoberfest to promote open-source contributions

Dev.to
Tag Moderator — Python, WebDev, Django

EDUCATION

Bennett University Greater Noida, India
Bachelor of Technology (B.Tech), Computer Science Engineering — CGPA: 8.48/10 2022 – 2026
